

Backstory:

Retaw is a small colony of citizens who have been fortunate enough to inherit incredible thinking prowess. They have been recognized for this and granted the incredible privilege of undertaking missions to solve some of Earth's most crucial problems.

Due to a recent natural disaster, the colony of Retaw has been left with only a few different resources at hand for them to use. The citizens of Retaw must attempt to solve the incredibly difficult problems of the Earth using said resources: however, to prevent further scarcity, only two resources can be used on each problem.

The leading powers of Earth recognise solving crucial world issues under a resource scarcity is quite a challenge for Retawians and are not expecting perfect solutions. After much discussion between the world leaders and Retawians, the following rules were decided upon:

- Each idea may only involve 2 Retaw resources
- Each idea must provide some improvement on the current situation of the problem

Components (included in Print-And-Play):

1 x Game Rules (4 pages of text)

8 x Resource Card Sheets (67 total + 5 blanks)

4 x Mission Card Sheets (31 total + 5 blanks)

4 x Thinkbrain Card Sheets (36 total: 2 of each symbol)

4 x Challenge Counter Sheets (36 total: 2 of each symbol)

Components (to be provided by players):

1 x Timer (capable of 30- and 60-second timing)

Aim of the game:

To be the player with the most Mission Cards at end game.

Setup:

- The player with the longest eyebrows becomes the first Voicebox (see role below)
- Separate the deck into two piles: Resource Cards and Mission Cards
- Each player selects a Thinkbrain symbol and takes the 2 Thinkbrain cards with the corresponding symbol. One of these cards is collected and handed to the first Voicebox. The other sits in front of the player. Remaining cards are placed aside.
- Give each player their 2 Challenge tokens with their Thinkbrain symbol on them

NOTE: Thinkbrain cards 1-9 are a colour-blind friendly set.

The Voicebox Role:

- Makes sure each idea uses both Resources
- Makes sure each idea is an improvement on the current situation of the Mission
- Makes sure players explain both of these in their idea
- Draws the cards for Alternative Ideas (see Stage 2)
- Has final say over any tie-breakers (see Stage 4)
- Keeps time

Stage 1: The First Idea

- The Voicebox draws a Thinkbrain card. This player is the starting Thinkbrain.

NOTE: If this is NOT the first round of Retaw, make sure the Thinkbrain cards from the previous round ARE NOT shuffled back in until after the above step.

- The Voicebox draws 1 Mission Card and 2 Resource Cards.
- The starting Thinkbrain has 60 seconds to put forward a potential idea to solve the problem on the Mission Card.
- They may use ONLY the two resources on the Resource Cards, and must use BOTH resources for the idea to be valid.

NOTE: On any round after the first round

Shuffle the Thinkbrain cards from the previous round back into the Thinkbrain deck.

Stage 2: Alternative Ideas

- The Voicebox draws additional Thinkbrain cards.
 - 7 or less players = 2 cards are drawn
 - 8 or more players = 3 cards are drawn
- These players may submit an Alternative Idea. They may also use ONLY the two resources on the same Resource Cards, and must use BOTH resources for the idea to be valid.
- If a player chooses to not submit an idea, another Thinkbrain card is drawn.

NOTE: If the Voicebox or the first Thinkbrain is drawn during this round, place the card aside and draw another Thinkbrain card.

Stage 3: Challenges to Ideas

- The Voicebox calls for any challenges.
- Players who wish to make a challenge must turn over one Challenge token to do so. They may then pose one question or make one statement towards another player regarding that player's idea. They have 60 seconds from the time they begin speaking in which to do this.
- The player challenged has 60 seconds from the time they begin speaking to respond to the challenge.
- Players collect their Challenge tokens at the end of the round.

Stage 4: Voting on Ideas

- The Voicebox calls for a vote once all Challenges have been heard, or all Challenge tokens have been used.
- Players must vote, and may only vote once. The Voicebox does not vote.
- Players are permitted to vote for their own idea.

NOTE: Tie Breakers:

1. The Voicebox calls for a re-vote with only the tie-breaker ideas
2. The Voicebox introduces a third resource. Each Thinkbrain with a tie-breaker idea must now work this third resource into their idea. Vote again.
3. The Voicebox selects a winning idea.

Stage 5: The Winning Idea

- The Voicebox gives the Mission card to the player with the most votes.
- This player becomes the Voicebox for the next round.
- Play begins again at Stage 1

Endgame:

You can choose to end the game when either:

- all the Mission Cards have been played, or
- when a player reaches 5 Mission Cards, or
- after a set time limit.

The player with the most Mission Cards wins.
